Time		Major Events					
0715	Arrived at EP	d at EPA CP					
0900	Greka onsce	Greka onscene at "Bobbys' Hole" to fill and cap the hole. DFG is not onscene, but CG is.					
1100	Greka is awaiting DFG to finish the cap job.						
1300		CG talkd to DFG about cap job at Bobbys' Hole. DFG wanted to be there to observe, but will be involved on Monday to finish the job					
1500	Took a drive done.	Took a drive around the Ucal lease to check on the 12 items that Greka has to address, none have been					
1600	OPS brief. 10 hazmat bins have been removed from Zaca. Crews almost complete with sparging the creek. DFG did a walkthrough of the Cal 60 creek, found more oil where Greka was walking on the oil in the creek. The clamp that has secured the leak still needs to be tightened done. Currently unsure if Cal 60 creek is complete. Crews still guzzling in Section A of Palmer Creek, will finish sparging section G on Monday. Greka to pickup boom and pompom in Zaca creek on Monday, and DFG and EPA/CG will be present on Monday for a walkthrough of Palmer Creek to find out how much clean up is left. Greka still needs to dig out the pipe that is leaking at Security Fee Lease #9.
